EDUCATION

Bachelor of Science in Environmental Studies June 2026
University of Washington Seattle, WA
GPA: 3.65 | Dean's List (4 quarters)
Relevant Coursework: Restoration Ecology, Forest Ecosystem Management, GIS for Environmental Analysis, Watershed Hydrology

RELEVANT EXPERIENCE

Student Research Assistant Jan 2024 – Present
School of Environmental and Forest Sciences, University of Washington Seattle, WA

- Collected and analyzed soil and water samples as part of a long-term riparian restoration study
- Utilized ArcGIS to map vegetation changes across four restoration sites
- Improved data-processing workflows, reducing sample analysis turnaround time by 25% and enabling more timely decision-making for ongoing restoration efforts
- Co-authored poster presented at the UW Undergraduate Research Symposium

Environmental Education Intern Jun 2023 – Sep 2023
Discovery Park Environmental Learning Center Seattle, WA

- Led nature walks and facilitated environmental science activities for youth groups and camps
- Designed educational materials focused on native plants and wildlife
- Collaborated with staff to develop a sustainability education curriculum for public programs

Field Crew Member – Forest Inventory Project Jun 2022 – Aug 2022
U.S. Forest Service (through Student Conservation Association) Olympic National Forest, WA

- Conducted vegetation surveys, tree measurements, and canopy assessments across 25 forest plots
- Used tablets with FieldMap software to record data and ensure accuracy in real-time
- Worked in a small team under remote conditions, following strict safety and data collection protocols
- Gained familiarity with Pacific Northwest forest ecosystems and silvicultural practices

LEADERSHIP & CAMPUS INVOLVEMENT

Volunteer, *UW Campus Sustainability Fund* Jan 2024 – Present

- Reviewed student project proposals related to campus sustainability initiatives
- Collaborated with a diverse committee of students and staff to allocate over $80,000 in annual funding to projects focused on energy efficiency, sustainable food systems, and environmental justice on campus

President, *UW Society for Ecological Restoration* Sep 2023 – Jun 2025

- Coordinated volunteer events restoring native habitats in the Union Bay Natural Area
- Secured $1,500 in funding through grants and ASUW partnerships
- Managed social media and increased event participation by 40%
- Oversaw projects that restored over 2 acres of degraded habitat, improving native species coverage by 30%

TECHNICAL SKILLS

GIS & Mapping: ArcGIS, QGIS, GPS data collection
Data Analysis: R, Excel, Google Sheets
Field Tools: Soil corer, pH meter, flow meter, data loggers

CERTIFICATIONS & ADDITIONAL INFO

First Aid & CPR Certified (American Red Cross, 2025)
Fluent in Spanish (Conversational)
Passionate about urban ecology, environmental justice, and community-based restoration
