Jordan Lee

Product Engineer

Chicago, IL | (312) 555-0142 | jordan.lee@example.com | linkedin.com/in/example

Summary

Product engineer with seven years of experience shipping customer-facing features end to end, from the data model to the interface. Most at home on small teams where engineers talk to users.

Experience

Product Engineer, Larchmont Health

Chicago, IL | 2021 - Present

- Owned the patient scheduling flow end to end; rebuilt booking in React and .NET and cut drop-off by 22%.
- Introduced feature flags and staged rollouts, turning monthly releases into weekly ones.
- Paired with support every sprint to triage the top five customer issues.

Software Engineer, Brightline Logistics

Chicago, IL | 2018 - 2021

- Built the shipment tracking dashboard used by 300 dispatchers.
- Moved reporting queries from the app server to PostgreSQL views, halving page load times.

Junior Developer, Corvid Studio

Evanston, IL | 2017 - 2018

- Delivered client web projects in React and Node.js.

Skills

React, TypeScript, C#, .NET, PostgreSQL, REST APIs, Feature flags, Playwright

Education

B.S. Computer Science, University of Illinois Chicago, 2017
