Sam Patel

Senior Software Engineer

Senior engineer focused on platform reliability and data-heavy backends. Ten years building services that other teams depend on.

Experience

Senior Software Engineer, Ridgefield Insurance

Madison, WI | 2019 - Present

- Led the move of claims processing to an event-driven design on Kafka, handling 4M events a day.
- Cut PostgreSQL storage costs 35% with partitioning and retention policies.
- Mentored four engineers; two were promoted within a year.

Software Engineer, Epoch Systems

Verona, WI | 2015 - 2019

- Built internal APIs for billing and eligibility in Go and Java.
